

# RhinoDome™ Marker Post

The round design of the RhinoDome makes it visible from any direction. It consists of an engineered thermoplastic post, with a 21" dome and a 10" anchor tube. The RhinoDome has a 3.5" outside diameter and includes a standard one-color black graphic hot-stamped on 2 sides.

### Temperature and UV Stable

The RhinoDome is UV stable and can withstand extreme temperatures. The RhinoDome is temperature stable from -40° Fahrenheit to +150° Fahrenheit.

### Durable

The RhinoDome is capable of withstanding a vehicle impact and will return to its original upright position.

### Colors

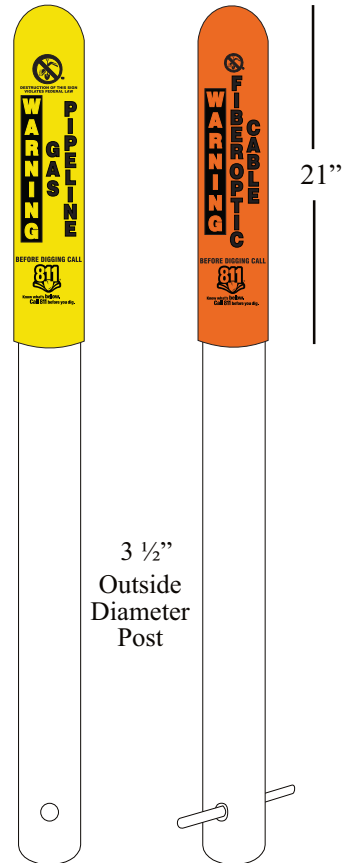

**Post:** Orange, white, and yellow.  
**Dome:** Orange, yellow, red, green, blue, and white.  
Custom colors may be available. Call for details.

### Graphics

RhinoDome Graphics are hot-stamped onto the marker, permanently fusing the warning message to the post.

### Lengths

Standard overall lengths include 5.5', 6', 6.5', 7', 7.5' and 8'.  
Custom lengths may be available.  
Call for details.

With 10" supplied anchor tube
