

# Aerial Marker™

Aerial Markers consist of a post, frame and panels. They are used for aerial inspections and surveillance of pipelines from the air. They also mark the distance between two points on the pipeline.

## Components / Posts

Posts may be wood, round pipe or U-channel. An optional Rhino TriView Sleeve over a U-channel post allows for the use of a decal with a warning message and identifying information.

## Frames

The welded frames are 1" x 1" aluminum channel. Mounting brackets are available for each type of post. Hardware is not included.

Standard frame sizes are:

- 9"W X 12"H
- 18"W X 12"H
- 27"W X 12"H
- 12"W X 12"H
- 24"W X 12"H
- 36"W X 12"H
- 9"W X 16"H
- 18"W X 16"H
- 27"W X 16"H
- 12"W X 16"H
- 24" X 16"H
- 36: X 16"H

Custom colors and sizes are available on request.

## Panels

Panels are screen or digitally printed and available in .125 poly, .063 aluminum or 4mm Dibond. Hardware not included unless purchased with frames.

Standard colors are UV stable.

Aluminum and Poly panel standard colors are Orange, White or Yellow.

Dibond standard colors are White or Yellow.

Standard sizes are:

- 9"W X 12"H
- 9"W X 16"H
- 12"W X 12"H
- 12"W X 16"H

Custom colors and sizes are available on request.
