

SPRAYSMART™ System

PROPELLANT-FREE MARKING PAINT DELIVERY SYSTEM

Spray Smart Marking Paint is a non-aerosol, propellant free delivery system for marking paints. The marking paint is supplied in a flexible pouch and uses a unique compression technology device to spray the paint.

Device

Self-contained, rechargeable unit. 2¾" dia. X 14" h.

The device is supplied with both a line voltage charger and a 12-volt charger.

- Sprays in any direction, on any substrate and in any weather condition
- Designed to fully empty each paint pouch – No Waste
- Non-clogging spray tip
- Lightweight design. Device and pouch weigh the same as a full 20 oz. can
- Each pouch marks more linear feet than leading competitor
- Lithium ion battery sprays up to 48 paint pouches when fully charged

Paint Pouches

- Fill Weight: 10.5 fl. oz.
- Practical Coverage: 500-600 linear feet at 1" wide
- Paint pouches are safer to transport than aerosol cans and take up less space
- The transparent pouch allows you to see the color and amount of paint in the pouch
- Durable pouch withstands tough handling and allows for quick color change with the device. Partially used pouches can be stored for future use
- Propellant free – No disposal concerns. Empty paint pouch can be discarded in regular trash
- Dry Time: 5-10 minutes
- Shelf Life: 3 years

Typical Applications

Utility locating, construction sites, landscape sites, golf courses and much more.
